Next-gen crane advertising is here.

The SkySigns Advantage

Impact on a grand scale

SkySigns, delivered in partnership with AD Group, is a next-generation crane signage and advertising platform designed to transform tower cranes into premium, high-visibility advertising assets.

Combining structural engineering, advanced lighting technology, and large-format branding, SkySigns provides a cutting-edge advertising solution that delivers maximum exposure while maintaining strict compliance with safety, wind loading, and aviation requirements.

Reach For The Sky

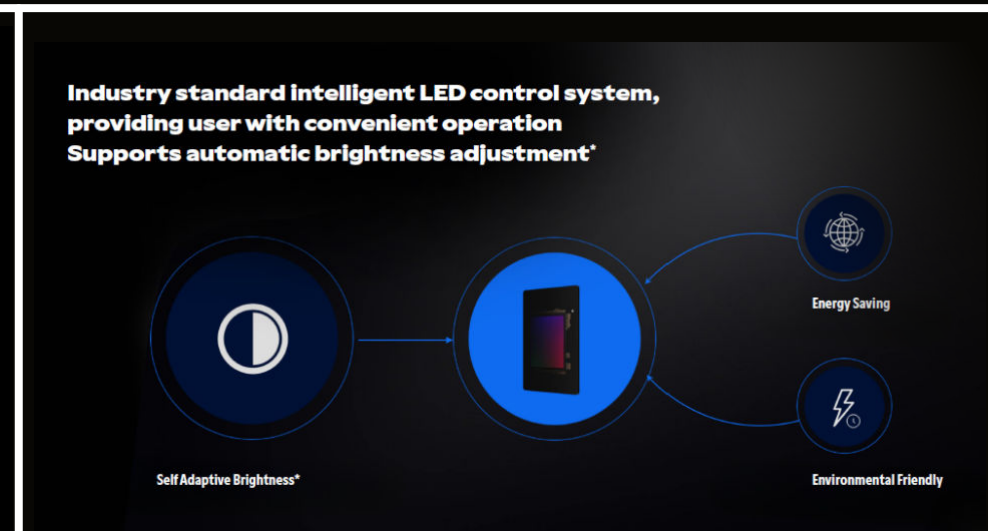

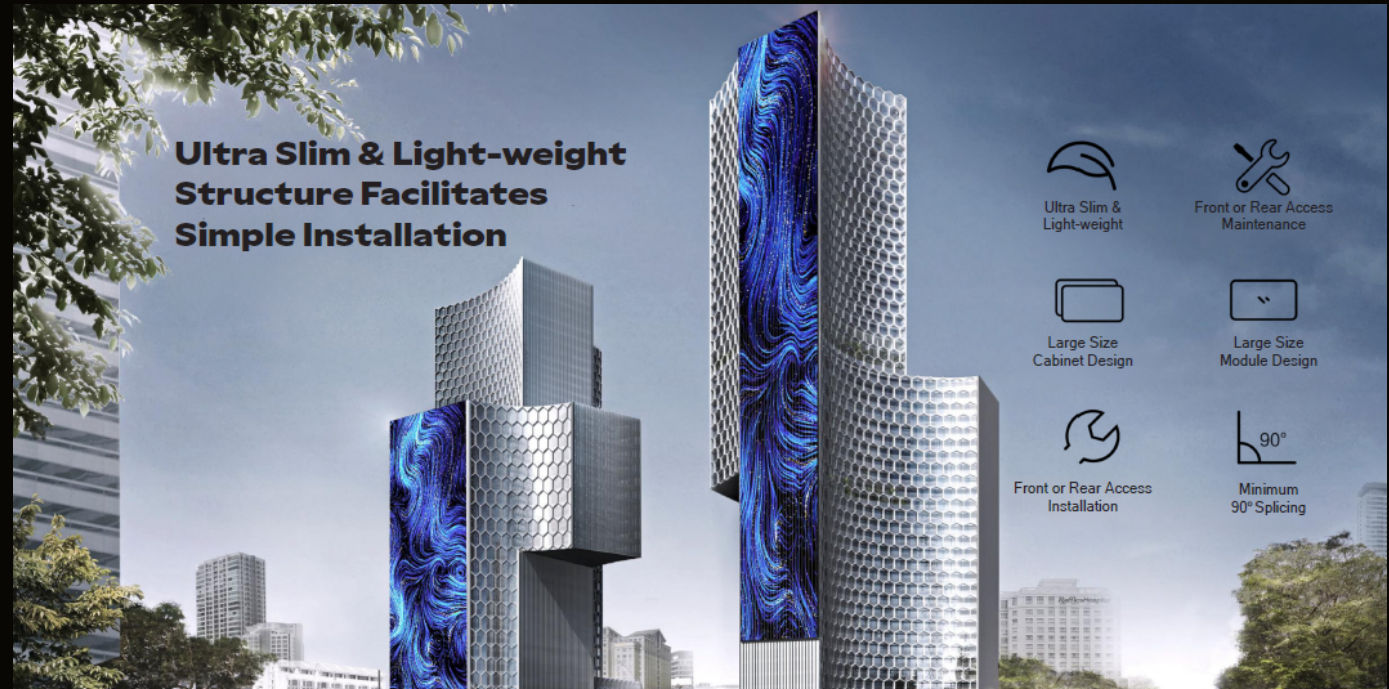

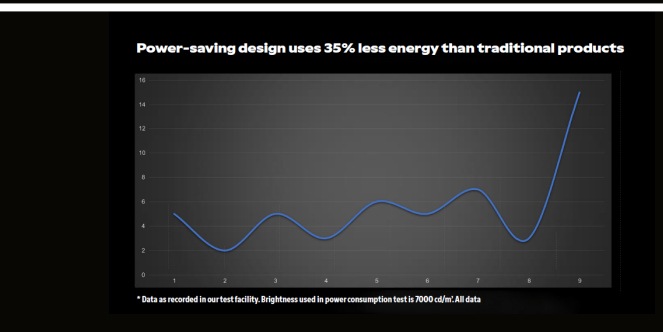

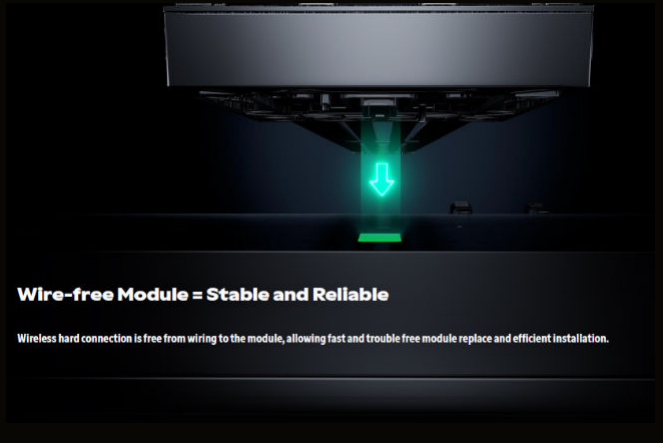

The city is your canvas

SkySigns offers advertisers and developers a unique opportunity to:

- Turn tower cranes and fixed structures into skyline-dominating advertising platforms
- Gain exceptional visibility across urban skylines and transport corridors
- Deploy energy-efficient LED lighting built for 24/7 operation
- Integrate branding, messaging, and dynamic illuminated displays into one robust engineered system
- Access unlimited content options through remote upload software

The SkySigns Advantage

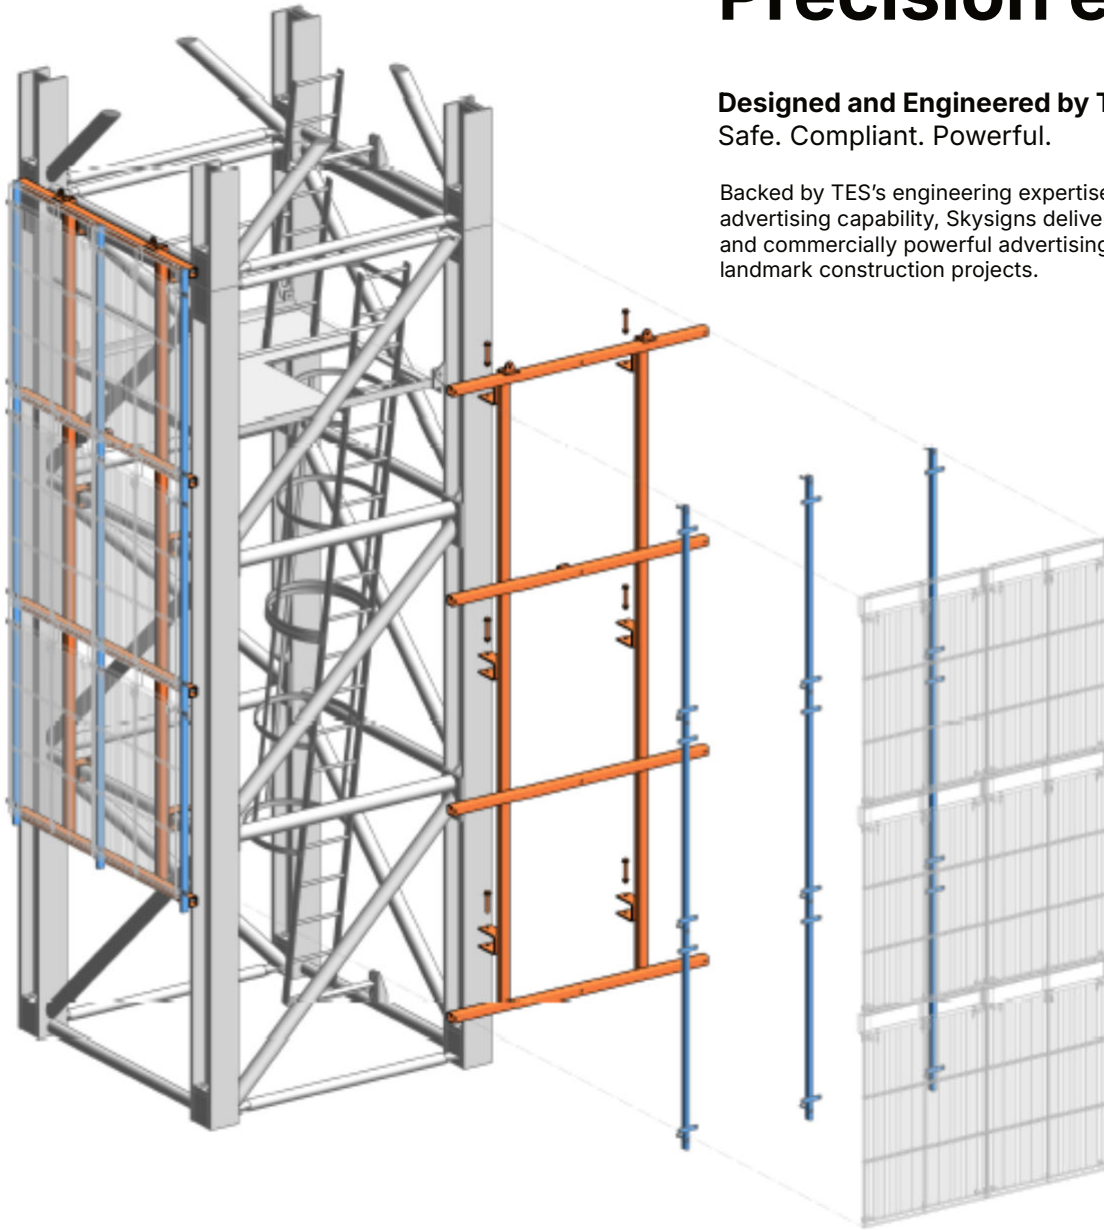

TECHNICAL DRAWINGS

Precision engineered.

Designed and Engineered by TES

Safe. Compliant. Powerful.

Backed by TES's engineering expertise and AD Group's advertising capability, Skysigns delivers a safe, compliant, and commercially powerful advertising solution for landmark construction projects.

Make the skyline yours
